Clerk of the  
Committee\*:**

Please forward this email to all committee members

**My message of  
support for HB  
5225, HB 5498,  
HB5499\*:**

Please adopt the substitute language and pass an amended HB 5225 along with HB 5498 and HB 5499. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan. However, I DO NOT support the national "Reciprocity" Bill. Anything taken from the State and given to the Fed is certain to lead to communist style gun bans. I do not believe Americans will just hand them over like the Australians did.

Thank You

**My email\*:** [jaysee12@yahoo.com](mailto:jaysee12@yahoo.com)

**Message for the  
Clerk of the  
Committee\*:**

Please forward this email to all committee members

Please adopt the substitute language and pass an amended HB 5225 along with HB 5498 and HB 5499. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

Michigan is pretty unique when it comes to hand gun registrations.

Please take a look at the data from other states to help respond to those who are concerned that the eliminatin of the pistol permits will somehow have a negative affect of public saftey or the ability of the police to do their jobs properly.

**My message of  
support for HB  
5225, HB 5498,  
HB5499\*:**

Both the U.S. Constitution and the Constitution of the State of Michigan are very clear on firearm ownership. Nowhere do they state that a permit must be obtained prior to purchasing a pistol. The permit is the Constitution. We should all live by and abide by these documents. If we don't like the constitution, there are methods to make changes.

It is time to enforce existing laws that are constitutional and stop trying to pass feel-good laws that only the law-abiding members of society will obey.

These laws only put a burden on those of us who are law-abiding citizens. The bad guys don't obey the law anyway. I believe the State government has plenty of important work to do. It is time to eliminate unnecessary laws so that your time can be spent on improving the quality of life and the economic well-being of the citizens of the State of Michigan.

Jim Carter

**Message for the Clerk of the Committee\*:** Please forward this email to all committee members

**My message of support for HB 5225, HB 5498, HB5499\*:**

Please adopt the substitute language and pass an amended HB 5225 along with HB 5498 and HB 5499.. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

**Message for the  
Clerk of the  
Committee\*:**

Please forward this email to all committee members

**My message of  
support for HB  
5225, HB 5498,  
HB5499\*:**

Please adopt the substitute language and pass an amended HB 5225 along with HB 5498 and HB 5499.. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

5225\*:**

Please adopt the substitute language and pass an amended HB 5225. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

**My message of support for HB 5225\*:**

Please adopt the substitute language and pass an amended HB 5225. Michigan's permit system is duplicative of the Federal NICS system that has been required since 1998. The permit system requires a purchaser to take time off of work since most police departments do not issue permits after business hours or on weekends. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation is an important public safety and cost saving measure for Michigan.

**My message of support for HB 5225\*:**

Please adopt the substitute language and pass an amended HB 5225. Michigan's permit system is duplicative of the Federal NICS system. The permit system requires me (and others I am sure) to take time off of work since I must travel 25 miles to the county courthouse/County Sheriffs office, during their regular business hours. This bill does not in any way change the law for concealed pistol licenses or change the manner or location in which they can be carried. This legislation remove a costly step in the legal firearms purchase process, that is already duplicated by a Federal program, and will free up a deputie from administrative work, to actual law enforcement.

Thank you
